

# USB

## Urban Solar Bench

Solar street furniture

*looker's phil*  
DESIGNED 4 U

# USB

Urban Solar Bench

# What ?

## Autonomous!

USB is an urban furniture  
Which works with energy  
Solar

# What else ?

## Connected !

The USB is equipped with electrical outlet to charge any electronic device

# Where ?

## URBAN!

The USB has been designed for the big squares and other spaces of our cities of today and tomorrow

Renewable energy

# Why?

Autonomus

Design et innovative

environmentally friendly

Nature & Urban

Stay connected

Useful and pleasant

# How?

The use of **solar glasses** allows transparency during night lighting

Creation of an **internal plant terrarium** and external planters adapted according to the region of the world where it will be installed

# How?

4 Turbolian wind turbines bring complementary **energy** and **air** to plants

Resistant and **recyclable** building materials

Lighting from LED technology

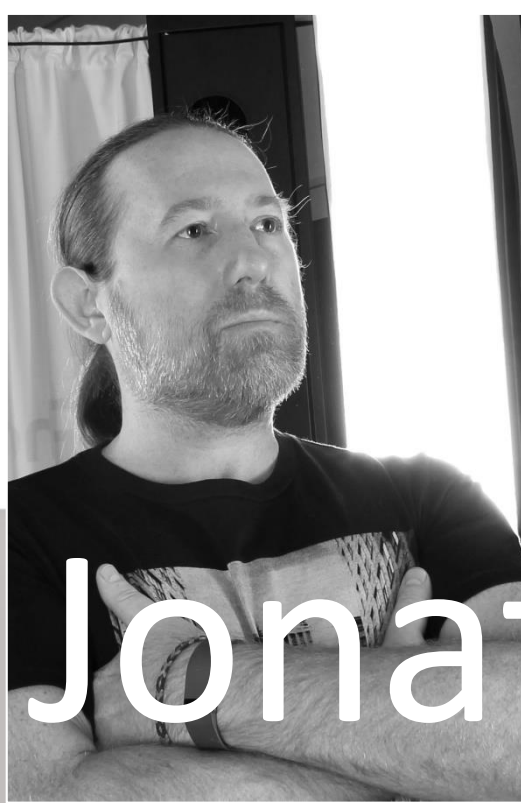

# Who?

Phil & Jonathan

Are two creators.

Conceiving, inventing,  
imagining and especially  
REVEREALISER are their  
key wordss.
